“It’s NOT just a cleaning anymore!”

PROFESSIONAL HYGIENISTS CHECK EVERY VISIT FOR

- Oral cancer exam
- Check gums for blood, pus, or pockets.
- Check for decay.
- X-ray(s) to check for decay between teeth and/or cysts or abscesses.
- Check fillings for leaks or cracks.
- Check for loose teeth or shifting and drifting of teeth.
- Check bite for wear or TMD problems (or wear facets).
- Evaluate cosmetic issues.

Remember: Regular cleanings and exams are the key to long-term oral health!
